

15th January, 1971

Dr. Harry Shwachman,  
The Children's Hospital Medical Center,  
300 Longwood Ave.,  
Boston, Mass. 02115.

Dear Harry,

We are delighted that you can come to our conference in June.

Orville Elliot is a problem. He is the world's greatest procrastinator. He is no longer with me but is back in Singapore. His address is Department of Anatomy, University of Singapore, Sepoy Lines, Medical Faculty, Singapore 3. He is, I gather, teaching at the Department of Anatomy there.

I would suggest you write to him and if you get no reply or no satisfaction let me know. I will try to get after him. I have no information where the data are.

Best regards.

Sincerely,

Victor A. McKusick, M.D.  
Professor of Medicine
